NICOLAS MAROTO

Undergraduate University Student

Fredericton, NB | NICOLAS.MAROTO@OUTLOOK.COM | +1 (506) 897-4501 | linkedin.com/in/nicmaroto

PROFESSIONAL SUMMARY

Motivated undergraduate student at the University of New Brunswick with strong communication and teamwork skills. Experienced in fast-paced environments requiring organization, adaptability, and attention to detail. Proven ability to build relationships, manage responsibilities, and maintain high standards of quality across diverse teams. Trilingual with international academic experience and a strong focus on delivering high-quality service and positive customer experiences.

EDUCATION

Present - 2024

University of New Brunswick

3 Bailey Dr, Fredericton, NB E3B 5A3

Undergraduate Mechanical Engineering Major

EXPERIENCE

Present - 2026

Executive Member at UNB Fencing Club

University of New Brunswick, Fredericton

Led efforts to rebuild and organize the university fencing club through the creation of a new leadership structure and supporting event planning to expand club involvement in campus-wide events. Oversaw marketing initiatives to promote the club and contributed to long-term development goals, including soon transitioning the club into a varsity-level team, while gaining hands-on experience in team coordination, organizational management, and adapting to evolving responsibilities in a fast-paced environment.

2024

Club Founder & President

Fredericton High School, Fredericton NB

Taught the basics of crafting good resumes and LinkedIn profiles to fellow peers at Fredericton High School, while practicing marketing and organizational leadership through promotion, the coordination of schedules and locations, and the preparation of instructional material.

2018

Internship at Mondi

Wolfsberg, Austria

Interned as part of a school program utilizing strong presentation and PowerPoint skills to prepare presentations for employees based on provided requests. Gained early exposure to professional communication, presentation design, and adapting technical content for workplace audiences.

PROJECT EXPERIENCE

2024

Prosthetic Arm Prototype

University of New Brunswick, Fredericton NB

Collaborated in a team of four to design and build a prosthetic arm tailored to a patient's specific needs and preferences. This project strengthened attention to detail, accountability, and the ability to carry complex tasks from concept to completion while effectively communicating and collaborating with my team.

2023 - 2022

Autonomous Piano for Yamaha Music

FCS Innoation Academy, Atlanta GA

Built an autonomous piano-playing robot in a team of three showcased at the Innovation Academy showcase. Oversaw planning, preparation, and assembly, coordinating tasks and troubleshooting issues as they came up. Demonstrated consistent follow-through, adaptability under time pressure, and clear communication to keep progress steady and results polished.
